PROFESSIONAL SUMMARY

Dedicated Production Executive with a robust background in biotechnology manufacturing, inventory control, and quality assurance. Highly effective at supporting daily production floor operations, guiding staff, and ensuring strict adherence to GMP and regulatory standards. Equipped with advanced technical skills in AI foundations and data management tools to help optimize production schedules and troubleshoot complex operational issues.

PROFESSIONAL EXPERIENCE

Production Executive | GCC Biotech India Pvt. Ltd.

25/10/2021 – Present

Operations Support & Floor Coordination

- Provided essential direction, guidance, and support to production personnel to ensure efficient and effective operations.
- Developed and implemented optimized production plans and schedules to meet customer demand while maximizing resource utilization.
- Collaborated with cross-functional teams, including R&D, quality assurance, and logistics, to ensure seamless manufacturing operations.
- Delivered training and support to lab technicians post-confirmation, assisting with application onboarding, troubleshooting, and usage queries.
- Fostered a culture of safety, quality, and continuous improvement within the production department.

Inventory Control & Warehouse Management

- Managed comprehensive inventory levels of biotech products, conducting regular counts, audits, and reconciliations to maintain total accuracy.
- Oversaw daily operations of the warehouse, including the precise receiving, storage, and dispatch of materials.
- Implemented stock rotation and FIFO (First In, First Out) procedures to effectively minimize product expiration.
- Maintained detailed, accurate records of all product movements, including receipts, shipments, and inventory adjustments.

Quality Control & Packaging (GCC Biotech Cont.)

- Conducted rigorous inspections and testing of biotech products at multiple stages of the production cycle.
- Assisted in the development and implementation of updated quality procedures and operational work instructions.
- Supported sterile packaging operations and conducted root cause analysis to implement long-term process improvements.
- Ensured total adherence to GMP and relevant industry regulatory requirements.

TECHNICAL SKILLS & CORE COMPETENCIES
